## GRP SAFETY BARRIERS for Emergency Safety Showers Optional Fittings

Protect the safety of your workforce and comply with EN and ANSI standards accessibility requirements for emergency safety showers.

These hi-visibility barriers provide a demarcation zone to help prevent the access area at the front of a safety shower being obstructed. In addition, they offer stability to the casualty who can use the barriers as a handrail in the event of an emergency.

- Floor or wall mounted to give improved access to safety showers and eye/face washes
- Manufactured in hi-visibility yellow, lightweight, non-corrosive GRP (Glass Reinforced Plastic)
- Choose from single posts, side barriers, corner barriers or U-shaped barriers to protect from 3 sides - complete with floor mounting plates
- Shipped in kit form for ease of assembly on site

### Specifications

#### MATERIALS OF CONSTRUCTION

BARRIERS GRP (Glass Reinforced Plastic)
