

Product Datasheet

PORTAdec™ 500 Portable Decontamination Misting Shower

Multi-nozzle misting decontamination shower can kill the COVID-19 virus upon application to skin, clothes and personal protective equipment when used in conjunction with the appropriate non-toxic disinfectant solution. Featuring a self-sanitising mat at the base of the unit, this portable solution offers top to toe decontamination.

- Suitable for decontamination of PPE or within hygiene facilities for the general public
- Zipped sides allow for set-up as a walk-through unit
- Quick deployment
- Hands-free foot activation with automatic shut-off after 10 seconds use
- Packed in a transportable case on wheels
