

Product Datasheet

Heated cabinet for use with the STD-28G and STD-38G

Manufactured from strong and durable white GRP, this heated cabinet protects the STD-28G or STD-38G emergency eye/face wash from the frost and external contaminants such as dust and debris. Complete with eye wash sign and hi-visibility green and white safety stripes, the cabinet can be wall mounted to save floor space.

Unheated cabinet also available.
