

Product Datasheet

GRP Safety Barriers

Protect the safety of your workforce and comply with EN and ANSI standards accessibility requirements for emergency safety showers. These hi-visibility barriers provide a demarcation zone to help prevent the access area at the front of a safety shower being obstructed. In addition, they offer stability to the casualty who can use the barriers as a handrail in the event of an emergency.

- Floor or wall mounted to give improved access to safety showers and eye/face washes
- Choose from single posts, side barriers, corner barriers or U-shaped barriers to protect from 3 sides - complete with floor mounting plates

Specifications

MATERIALS OF CONSTRUCTION	
BARRIERS	GRP (Glass Reinforced Plastic)
DIMENSIONS & WEIGHT	
BARRIER OPTIONS	U-shape - 1000mm (W) x 1200mm (D) x 1120mm (H) L-Corner - 1000mm (W) x 1200mm (D) x 1120mm (H) Single - 1000mm (W) x 1120mm (H) Other sizes and materials available on request
BASE PLATE	110mm x 110mm with 4 fixing holes 80mm apart (fixing holes size 11mm, for 4 x 10mm fixing bolts)
